Gear Technology Seminar 2019
Tokyo, Japan
November 15, 2019

Total Gear Solutions **Gleason**

You are cordially invited

to visit the Gear Technology Seminar at the InterContinental Tokyo Bay, Japan.

“Connected” systems make your gear production faster and more efficient than ever.

Learn about new hard finishing systems with in-process gear inspection, Combi Honing™ of typical eDrive applications, gear noise analysis, latest design and simulation software for gears and transmissions as well as current tooling developments which will bring added value to your gear production.

After the seminar, join us for the 34th Gleason Japan Club
to discuss and network among gear experts.

Udo Stolz
Vice President Worldwide Sales and Marketing
Gleason Corporation

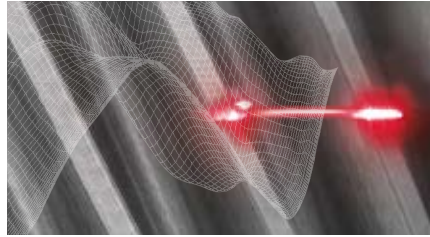

John J. Perrotti
